Ohio's Source for Ag Information

614-273-0465 • www.ocj.com • www.ohioagnet.com

Ohio's Country Journal and the Ohio Ag Net are affiliated companies of Ag Net Communications, LLC. The goal of Ag Net Communications is to provide the Ohio farming community the information they need to help make their farm profitable, while also providing an enjoyable and entertaining experience through our print, radio, and online offerings.

Ag Net Communications, LLC is located in Columbus, Ohio. The company is owned by the Ohio Farm Bureau Federation, which purchased assets of *Ohio's Country Journal* and Ohio Ag Net from the Johnson family in 2020. The original company was founded in 1972 by the late Ed Johnson as Agri Communicators, initially producing daily radio reports for the ABN Radio Network and the then the weekly television show Agri Country.

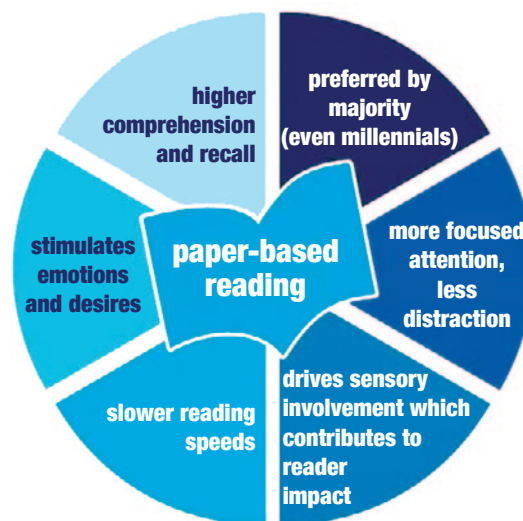

Ohio's Country Journal was first published in 1992 to meet the need for a farm publication focused solely on Ohio's agriculture and the people and events that make up Ohio's most important industry. *Ohio's Country Journal* is published twice a month and is recognized as Ohio's premier farm publication.

- **With a circulation of more than 22,000 your advertisements will REACH across Ohio!** “Ohio's Country Journal” delivers statewide coverage with a single publication.
- **Your message...delivered when you want it!** “Ohio's Country Journal” is published 24 times per year.
- **Every issue of *Ohio's County Journal* includes:**
News, Markets, Auctions, Crops, Farm Equipment, Classifieds, Rural Business Service, Livestock, Country Life, 4-H and FFA Highlights

What neuroscience says about why print ads work

Reading on paper is slower and deeper; paper readers remember more.

Advertising Opportunities

Advertising on the *Ohio's Country Journal* and the Ohio Ag Net online news site is sold by impressions. Once a decision is made as to the number of impressions that would be most helpful for each particular advertiser, our sales staff will help clients determine which advertising sizes and spaces are available and would be the most efficient use of advertising dollars.

Each day at 6 a.m., Ohio Ag Net recaps yesterday's closing markets, shares the overnight markets and highlights the top news stories of the day in a short, easy to read e-mail. It also includes a download of the morning broadcast so subscribers can listen to it on their phone or computer. Digital Dale keeps Ohio farmers and agri-businesses up to date on what's happening in Ohio agriculture.

Good Morning Everyone... 68 degrees this morning and .47 inch of rain overnight. Sure didn't see that coming but a welcome event.

WASHINGTON (September 1, 2020) - The U.S. Environmental Protection Agency **proposed a rule** that will streamline the regulation of certain plant-incorporated protectants (PIPs) that pose no risks of concern to humans or the environment. This action - which will be available for public comment for 60 days - delivers on a key directive under President Trump's **Executive Order on Modernizing the Regulatory Framework for Agricultural Biotechnology Products**.

U.S. Secretary of Agriculture Sonny Perdue: "Agricultural biotechnology has been and will continue to be an essential tool in helping America's farmers and ranchers feed, fuel, and clothe the world. From producers to consumers, all Americans deserve a government that delivers science-based, common-sense regulations that foster innovation, conserve resources, and protect public health-especially when it comes to the food supply. President Trump is committed to harmonizing our regulatory framework for agricultural biotechnology in order to equip our farmers with the tools they need to produce the world's safest, most abundant, and most affordable food supply."

A shocking solution to weed control

By Dusty Sonnenberg, CCA, Ohio Field Leader: a project of the Ohio Soybean Council and soybean checkoff The annual task of getting effective weed control is a challenge every farmer is familiar with. Each year millions of dollars are spent in the ...
